### **Request for Qualifications (RFQ)**

EIC is issuing this request for qualifications to expand the availability of Commercial Property Assessed Clean Energy (“C-PACE”) to assist commercial property owners in making capital investments in qualifying energy efficiency, renewable energy and water efficiency improvements in commercial, industrial, multi-family, agricultural and non-profit buildings. EIC is seeking capital providers interested in financing C-PACE projects with repayment of the financing secured through a voluntary assessment on the property. Interested property owners receive long-term financing for up to 100% of the cost of eligible improvements.

EIC is offering OPEN C-PACE, a financing structure that allows property owners to have the flexibility to select their preferred private capital provider for each individual project. No state funds are made available for C-PACE financing. No exclusivity or preferred status will be provided to capital providers; the property owners retain the right to choose the type and provider of financing that works best for them.

### **Capital Provider Submission:**

Any lender interested in offering Open C-PACE financing in New York State must provide Information adequate to become approved by EIC, a State-wide program administrator.

Please note that information that you submit to EIC may be subject to a request for public disclosure under the New York Freedom of Information Law. Some information can be withheld from disclosure pursuant to a Freedom of Information Law request, such as personal biographical or financial data, the disclosure of which would be “an unwarranted invasion of personal privacy,” or proprietary confidential business information not otherwise publicly available, the disclosure of which “would cause substantial injury to the competitive position of the firm” making the Capital Provider submission. If you wish to request that certain information in your submission not be disclosed under the Freedom of Information Law, the cover letter to EIC with your submission must specifically request confidential treatment for certain information and citing one or both of the reasons noted above. [The Freedom of Information Law](#) also provides additional exemptions from disclosure if you feel other information in the submission should remain confidential.

Any information for which you are requesting confidential treatment should be separated from the other material, and bound, stapled, clipped, or electronically segregated, with a cover sheet marked “Confidential Supplement.”

EIC reserves its right to approve or disapprove any Capital Provider’s application in its sole discretion.
